

# Business Process Subcommittee

---

November 2001  
Scottsdale, AZ

# BPS Responsibilities

- BPS is responsible for the development of business process models that facilitate the development of industry wide eBusiness implementations.

# BPS Mission

- Model and document established business processes, scenarios and rules for conducting business between trading partners.
- Develop, model, document and participate in the piloting of dynamic business processes in conjunction with the Technology Subcommittee (TECH) and the Guidelines and Standards Subcommittee (GSS)

## BPS Mission

- Analyze emerging e–business processes and develop business models that have the flexibility to facilitate multiple process scenarios
- Work with the Education and Promotions Subcommittee (EDU) to promote dissemination of BPS work products and report results of pilot projects.

# EIDX BPS Officers and Liaison

- Chair:
  - Ed Gallagher, MEMC Electronic Materials
- Vice–Chair:
  - Roger Trout, Sterling Commerce
- Board Liaisons:
  - Chuck Caveney, Contivo
  - Stephenie Cooper, Hewlett–Packard

# Accomplishments since August

- Further updates to “clickable” business models index for cross-references between X12, EDIFACT, RosettaNet and OAGI (next slide)

These models have been partially recast. Many updates have been made to the information published on the web pages. The downloadable document has not been updated to reflect the changes, but is available here: [Order Business Models - PDF \(7/97\)](#).

See also recommendations that apply to all transactions/messages, including Partner Identifiers. Click [here](#).
