

# M E I D X MESSAGES

Spring 2002

Newsletter and Conference Brochure

## CompTIA-EIDX Conference

With the RosettaNet User Groups

May 6-9, 2002

**THEME:**  
**Partner Implementation:  
From Qualification to Production**

CompTIA-EIDX is proud to be the host for the Spring Conference.

Situated in the heart of Silicon Valley, between Hwy. 101 and San Jose International Airport, the DoubleTree puts you 45 minutes south of San Francisco and one hour north of Monterey and Carmel. Theme parks, museums, golfing, corporate headquarters and more can also be found close at hand.

### Where?

**DoubleTree San Jose**  
**2050 Gateway Place**  
**San Jose, CA 95110**  
**800-222-8733**

Room rates are \$145.00 per night.

*Remember to make your hotel reservation separately by calling the hotel directly. Mention that you are registering for the CompTIA-EIDX Conference. We have a block of rooms reserved for our group. The hotel cutoff date is Friday, April 12th.*

Go to [www.eidx.org](http://www.eidx.org) or [www.comptia.org](http://www.comptia.org) for conference registration, updated agendas, pre-registration lists, etc.

## Networking Opportunities

Join us  
***Monday night***  
for the  
Newcomers Welcome.  
Snacks/hors d'oeuvres  
compliments of  
CompTIA-EIDX.  
Cash bar.

And Join us  
***Tuesday night***  
for the  
Quarterly Dinner.  
Buy your ticket at the  
registration desk.  
\$25 cash or check  
only please

**Thinking about volunteering  
your company to host an  
CompTIA-EIDX conference?  
For details about hosting,  
contact Kim Albera Rogers at  
(630) 678-8365, [kalbera@comptia.org](mailto:kalbera@comptia.org)**

## EIDX PROMOTION & EDUCATION CLASS SCHEDULE

Class	Session Description	Class Schedule			
		May-02	Aug-02	Nov-02	Feb-03
First Time Participant	This session is designed for the first time EIDX attendee or those who have been away for awhile. There will be an overview of EIDX (including descriptions of sub-committees and task forces) and an opportunity to review the meeting format and ask any questions regarding the agenda.	X	X	X	X
Open Forum	This session is an opportunity for those of you who have questions about EDI to ask a group of EDI "experts". Want to know how the other companies resolve a specific problem? There is no agenda for the Open Forum and the only rule is each topic is limited to 15 minutes. Everyone is welcome to bring their questions and topics for discussion	X	X	X	X
The "Business" in "eBusiness": An Introduction	An overview of our business process framework - the suite of business processes that companies in the Computing and Electronics industries focus on for electronic commerce implementations. As EC has become the primary way of doing business, there has been an influx of new resources that have a technical background but do not know the business. This class answers the question, "What is the business we are trying to automate?" Experienced EC business analysts are also encouraged to attend the class as a refresher, to give feedback, or to see if it is material they can take back to their own companies. The class complements our "Introduction to Business Modeling" class, which focuses on how to build business models.				
EC 101, The Basics	EC 101 discusses the necessary components for starting an electronic commerce program: EDI standards (ANSI X12, EDIFACT), Communication (VAN, INTERNET) and Software (translators, mapping) and review the benefits of full EC implementation and integration.				
Introduction to ANSI X12 Mapping	This session will focus on X12 terminology such as transaction, segment, data elements, qualifiers and codes and their use. The session reviews the data mapping of common business data from a paper document to its placement in an X12 standard and is valuable to those who are not familiar with the X12 terminology or are just getting started in EDI.	X	X	X	X
Fundamentals of Purchase Order Processes	Purchase Order Processes form the core of Electronic Commerce (EC). As EC has become the primary way of doing business, there has been an influx of new resources who have a technical background but do not know the business. This class focuses on the PO processes introduced in "The "Business" in "eBusiness": An Introduction", and continues answer the question, "What is the business we are trying to automate?" Experienced EC business analysts are also encouraged to attend the class as a refresher, to give feedback, or to see if it is material they can take back to their own companies.				
Introduction to Business Modeling	This session will describe the current business process framework, the business processes used in our industry today, and how these processes fit together to create scenarios. We'll also review those that EIDX and CompTIA have completed.				
Introduction to XML	This class is an overview of eXtensible Markup Language (XML). It addresses the XML-EDI Frameworks and the implications of XML to eBusiness.	X	X	X	X
RosettaNet 101	A beginner's introduction to RosettaNet. What is RosettaNet? Who's involved? What are the benefits and the risks to including this XML standard in your company's overall B2B strategy?	X	X	X	X

## JANUARY CONFERENCE ATTENDEES

### **Aankhen, Inc.**

Ramesh Srinivasan  
Subhash Chowdary

### **Agilent Technologies**

Doug Jones  
Liang Kim Lim  
Dennis Gamban  
Mike Young  
Jinnie Yang

### **Altera Corporation**

Alvin Lau  
Jack Chiang  
Angelina Lu

### **APC**

Richard Morrissey

### **Arrow Electronics**

Dave Weyer  
Pam Webber  
Gary Crespin

# MEETING AGENDA

## MONDAY, MAY 6TH

---

7AM	Registration and Continental Breakfast
8 - 9:30 AM	Welcome and 1st Timers Orientation
9:30 - 11 AM	RosettaNet 101
11 AM - NOON	Replenishment Processes - Class Material Development Session
9:30 - NOON	RosettaNet User Group Work Session: - Organize Work Sessions for the Week - Milestone update - Top 5 issues
NOON - 1:30 PM	<b>LUNCH</b>
1:30 - 3 PM	Opening Session - Keynote Speaker: Dave Sommer, CompTIA
3 - 3:15 PM	<b>NETWORKING BREAK</b>
3:15 - 5:30 PM	RosettaNet User Group Work Session: Interoperability
3:15 - 5:30 PM	RosettaNet User Group Work Session: Business Dictionary
3:15 - 4:30 PM	X12 Terminology & Mapping
3:15 - 5:15 PM	xRef Recommendation Team: Review Core PO Fields across X12, EDIFACT, OAGI, and RosettaNet
6 PM	Newcomers Welcome Networking Opportunity

## TUESDAY, MAY 7TH

---

7AM	Registration and Continental Breakfast
8 - 9 AM	Open Board Meeting
9 - 10:30 AM	Introduction to XML
9AM-NOON	xRef Recommendation Team: Continue to Review Core PO Fields across X12, EDIFACT, OAGI, and RosettaNet
9 - 10 AM	Decision Support
10 - 11 AM	RosettaNet Design Win (DW) Distributor Scenario (Preparation for the RosettaNet Design Win Workshop on Thursday)
11 AM - NOON	RosettaNet Users Roundtable Discussion
NOON - 1:30 PM	<b>LUNCH</b>
<b>THEME: Partner Implementation: From Qualification To Production</b>	
1:30 - 1:35 PM	Introduction to Theme
1:35 - 2:30 PM	Entering the Fray: Defining your B2B Strategy & Implementation Roadmap
2:30 - 3:30 PM	Top 10 Implementation Gotchas - Lessons Learned
3:30 - 3:45 PM	<b>NETWORKING BREAK</b>
3:45 - 5 PM	RosettaNet User Group Session: Interoperability
3:45 - 5 PM	RosettaNet User Group Session: Business Dictionary
3:45 - 5 PM	SSD - Ship from Stock and Debit Process
7 PM	Networking Opportunity - Quarterly Dinner

---

## WEDNESDAY, MAY 8TH

---

6:30 AM	5K Walk, Crawl or Run
7 AM	Registration and Continental Breakfast
<b>THEME: Partner Implementation: From Qualification To Production</b>	
8 - 8:05 AM	Introduction to Theme
8:05 - 9 AM	Partner Qualification & Readiness
9 - 10 AM	Implementing Globally: The European Perspective
11 AM - NOON	Open Forum
NOON - 1:30 PM	<b>LUNCH</b>
1:30 - 3 PM	IT Security
3:15 - 4:15 PM	Joint Subcommittee Meeting for: Business Process, Technology Guidelines and Standards, Promotion & Education
3 - 3:15 PM	<b>NETWORKING BREAK</b>
3:15 - 4:15 PM	RosettaNet Virtual Factory/3PL
4:15 - 5:15 PM	Closed Planning Session - Subcommittee Leadership
4:15 - 5:15 PM	xRef Recommendation Team: Continue to Review Core PO Fields across X12, EDIFACT, OAG, and RosettaNet

## THURSDAY, MAY 9TH

---

7 AM	Registration and Continental Breakfast
8 - 9 AM	Board Meeting - Open
9 - 10:30 AM	B2B Software Vendor Roadmap Planning Session
9 - 10 AM	RosettaNet Task Force Review and Planning, Including User Group Wrap-up
9 - 5 PM	RosettaNet Design Win Workshop
10:30 AM - NOON	Distributor Alliance Task Force
NOON - 1 PM	Closing & Conference Review - Plan the Next Conference

### Track:

**BPS** = Business Process  
**BRD** = Board  
**EDU** = Education & Promotion  
**GEN** = General Session  
**GSS** = Guidelines & Standards  
**JRUG** = Joint RosettaNet User Group  
**TECH** = Technology  
**THM** = Theme

### Session Levels:

**BEG** = Beginner. The task group is at a stage where they can afford to do a lot of back-tracking for newcomers or new task group members  
**MED** = Medium. Some back-tracking can be done by the task group, but they need to start limiting it in order to keep forward momentum

**ADV** = Advanced. The task group is at a stage where there can be "no more back-tracking." The development of the supporting document or guidelines is almost done and documentation is being prepared for balloting

**Board** = Board and Subcommittee Chairs only

**All** = Everybody welcome

# SESSION DESCRIPTIONS

SESSION NAME	DETAILED DESCRIPTION
<b>B2B Software Vendor Roadmap</b>	This is a planning session to discuss the implementation of a vendor roadmap.
<b>Board and Chairs Meeting – Closed</b>	This is a meeting for the EIDX Governing Board and Subcommittee Chairs only.
<b>Board Meeting – Open</b>	Everyone is invited to attend Open Board meetings and discuss any issue.
<b>Closing and Conference Review</b>	This session officially closes the conference, reviews the sessions by Subcommittee that were held during the week and offers the opportunity for people to give input in planning the next quarterly conference.
<b>Decision Support</b>	This session explores the fundamental differences between transactional and decision support systems and messages. It will explore the data structure and temporal guidelines needed for successful extended supply chain decision support.
<b>Distributor Alliance Task Force</b>	Distributor Alliance is a session open to all conference participants. It offers an opportunity to discuss distribution related topics within a 'supply chain'. Distributors can also address topics with attending manufacturers, contract manufacturers, end users, and other distributors. EIDX members may submit topics for the agenda in advance of the conference.
<b>Entering the Fray: Defining Your B2B Strategy &amp; Implementation Roadmap</b>	EDI? RosettaNet? OAGI? Proprietary XML? Defining your company's B2B strategy can be a complex and arduous process. Get an insider's view of the challenges to be tackled and the issues that can't be ignored when you decide to step onto the B2B rollercoaster. Highlights will include aligning your organization's goals with the appropriate data formats and standards, structuring an implementation roadmap that allows for success, and developing a cohesive corporate B2B philosophy that takes trading partner needs into account.
<b>Implementation Panel</b>	Emerging technology's early adopters and veterans of conventional e-business implementations have one thing in common: both camps have great stories to share. There is a lot to be learned from the mistakes and the successes of companies who have first-hand experience implementing EDI, RosettaNet, and OAGI. Discover secrets of survival, how initial B2B strategies have evolved over time, what keeps the visionaries up at night now, and what's next for these dynamic risk-taking companies.
<b>Introduction to Theme</b>	The Theme coordinator will provide an overview of the Theme/Focus area for this conference and introduce the speakers selected to present.
<b>Introduction to XML</b>	This class is an overview of eXtensible Markup Language (XML). It addresses the XML-EDI Frameworks and the implications of XML to eBusiness.
<b>Joint Subcommittee Meeting</b>	Meeting of the Guidelines & Standards, Business Processes, Promotion & Education and Technology Subcommittees specific agenda items.
<b>Newcomers Welcome (ALL)</b>	This is a 'wind-down' from the first day's activities and a chance to network. There will be a cash bar with snacks. This is a good chance to introduce yourself to other members, meet trading partners and arrange dinner with your new friends.
<b>Open Forum</b>	This session is an opportunity for those of you who have questions about e-commerce/EDI to ask a group of EDI "experts". Want to know how the other companies resolve a specific problem? There is no agenda for the Open Forum and the only rule is each topic is limited to 15 minutes. Everyone is welcome to bring their questions and topics for discussion.
<b>Opening Session</b>	This session gives a preview of the activities planned for the week and provides an opportunity for general information to be shared. All conference attendees are encouraged to attend this session.
<b>Partner Qualification &amp; Readiness</b>	A critical element to the success of any application's roll-out is the selective targeting of trading partners on the roadmap. Your choice of a deployment partner can mean a quick win ensuring corporate confidence that funds future development or it can be a death march that slowly drags your team to a painful standstill. What are the trademarks of a good partner? What does your team need to do to make sure you've selected the right partners and have given them all the tools for a successful implementation? Learn how to create a repeatable process that reduces your IT team's efforts.
<b>Replenishment Processes - Class Development Material Session</b>	Materials will be reviewed to develop an introductory class on Replenishment Processes.

<b>RosettaNet Design Win (DW) Distributor Scenario</b>	In this session, we will discuss the Design Win (DW) Distributor Scenario in preparation for the RosettaNet workshop on Thursday. There will be discussion about how collaborative B2B processes might be enabled for a complex business process containing negotiation dialogs (sub processes) that can have one too many iterations and involve multiple parties.
<b>RosettaNet Design Win Workshop</b>	This session will address the review and restructuring of PIP 5C2 to support validation activities for the 2002 Design Win Milestone Program.
<b>RosettaNet Joint User Group Sessions</b>	<p>These will be a combined nationwide joint UG series of sessions designed to facilitate inter-user group coordination, discussion, networking, and problem solving. We will focus on top implementation issues collectively, more specifically to the work now being done for the RosettaNet Business Dictionary (RNBD) and for Interoperability. Additional issues will also be addressed as needed. These are working sessions, designed to develop deliverable solutions to RosettaNet, EIDX, EDIFICE, CompTIA, and member companies for the key issues. We will build on work already being done by each user group, by the EC Champion Team, and by the teams specifically designated to address RNBD and Interoperability.</p> <p>User groups represented will include: BARD (Bay Area RosettaNet Deployment), OSCAR (Organizing Southern California Activities for RosettaNet), RUNE (RosettaNet Users NorthEast), SWRUG (Southwest RosettaNet Users Group), TXRUG (Texas User Group).</p>
<b>RosettaNet Users Roundtable Discussion</b>	Roundtable discussion on the PIPs being done and why suppliers, manufacturers, customers, and everyone in the supply chain would want to do them. Discussion will include the impact of process change on an organization - praise/pitfalls; ROI - how to establish metrics for the future; Version control - upgrade management - how to hit a moving target.
<b>RosettaNet User Group Session: Business Dictionary</b>	The first session on Monday will be devoted to a RosettaNet Business Development progress update, including, use case development review and feedback, product evaluation and roadmap. The second session on Tuesday will be devoted to a current RNBD content repair strategy session.
<b>RosettaNet User Group Session: Interoperability</b>	Interoperability problems increase the time and money needed to add new trading partners, or start new collaborations with existing partners. The RosettaNet Interoperability Program will work on solutions to improve implementation interoperability within the RosettaNet trading network through collateral, education and testing activities.
<b>RosettaNet 101</b>	A beginner's introduction to RosettaNet. What is RosettaNet? Who's involved? What are the benefits and the risks to including this XML standard in your company's overall B2B strategy?
<b>RosettaNet Task Force Review and Planning</b>	Review task force objectives, accomplishments, and future plans.
<b>RosettaNet Virtual Factory/3 PL</b>	In this session we will discuss and review the status of the PIPs to support a Manufacturing Outsourcing Model. The RosettaNet iHub Program was the first attempt by the consortia to develop communication standards to support this Outsourcing Model. Third Party Logistics processes, Collaborative Design, Quality and Production Reporting are business processes addressed by this new team.
<b>SSD - Ship from Stock and Debit Process</b>	EIDX develops standards-neutral and technology neutral models. In this session, we will review the draft of the Ship-from-Stock and Debit (SSD) Distributor Scenario, and we will discuss recommendations for how SSD can be implemented in X12, EDIFACT, RosettaNet and OAGI.
<b>Top 10 Implementation Gotchas</b>	Embarking on a new B2B implementation can feel like standing at the edge of a mine field. Learn where the common pitfalls are from the first-hand experiences of EDI and RosettaNet veterans in this session. From typical project & partner management SNAFU's to intricate networking connectivity breakdowns, find out how to sidestep problems and minimize the impact of the most disastrous implementation derailers
<b>Welcome &amp; 1st Timers Orientation</b>	This session is designed for the first time attendee or those who have been away for a while. There will be an overview of EIDX (including descriptions of sub-committees and task forces) and an opportunity to review the meeting format and ask any questions regarding the agenda.
<b>X 12 Terminology &amp; Mapping</b>	This session focuses on X12 terminology such as transaction, segment, data elements, qualifiers, codes, and their use. The session reviews the data mapping of common business data from a paper document to its placement in an X12 standard and will explain the fundamentals of creating a map.
<b>XRef Recommendation Team</b>	Will Review Core PO Fields across X12, EDIFACT, OAGI, and RosettaNet

 **HOTEL INFORMATION****DoubleTree San Jose - San Jose, CA**

2050 Gateway Place, San Jose, CA 95110  
(800) 222-8733

Room rates are \$145.00 per night. Remember to make your hotel reservation separately by calling the hotel directly. Mention that you are registering for the CompTIA-EIDX Conference. We have a block of rooms reserved for our group. The hotel cutoff date is Friday, April 12th.

***Remember to register with EIDX ([www.eidx.org](http://www.eidx.org)) and the Hotel separately!***

Go to **[www.eidx.org](http://www.eidx.org)** or **[www.comptia.org](http://www.comptia.org)**  
for conference registration, updated agendas, pre-registration lists, etc.

**LOCATION:**

Situated in the heart of Silicon Valley, between Hwy. 101 and San Jose International Airport, the DoubleTree puts you 45 minutes south of San Francisco and one hour north of Monterey and Carmel. Theme parks, museums, golfing, corporate headquarters and more can also be found close at hand.

## Recreational Facilities:

- Outdoor pool
- Fitness center televisions and stereo system; fitness equipment includes free weights, exercise cycles, steppers and stair climbers
- 6 miles, 18-hole Palo Alto Municipal Golf Course
- 10 miles, 18-hole Santa Clara/Shoreline Golf Course

## Points of Interest:

- Stanford Shopping Center
- Paramount's Great America® Theme Park
- Shoreline Amphitheatre
- Filoli Garden

**DIRECTIONS:*****From San Jose Int'l Airport: Distance: .83 miles***

*Go Northwest on N. 1st. St. Turn left onto E. Brokaw Rd. E. Brokaw Rd. becomes Airport Parkway. Turn Right onto Gateway Place. tonio to El Camino Real. Turn right on El Camino Real. Drive 1/2 mile. Hotel is on right.*

***From San Francisco Int'l Airport: Distance: Approx. 35 miles***

*Take 101 North to San Antonio Rd. South. Follow San Antonio to El Camino Real. Turn right on El Camino Real. Drive 1/2 mile. Hotel is on right.*

## REGISTRATION FORM

IF YOU HAVE NOT REGISTERED ON-LINE, PLEASE COMPLETE AND RETURN ON OR BEFORE APRIL 26, 2002 TO BE COUNTED AS A PRE-REGISTERED ATTENDEE.

Register on-line at [www.eidx.org](http://www.eidx.org)

**Return via fax:**        **630-268-1819**
