Board Liaison: Bill French, Contivo

Accomplishments

- ✓ Monday: Awareness Session—Barbara Gooding, Panasonic Industrial Co. and Joyce Fox—Bedford, Compaq Computer Corp.
 - Overview/Comparison of Technical Architecture Recommendation Team (T.A.R.T.), EC Matrix and XRT (XML Recommendation Team)
 - Explanation & Review of the Internet Commerce Model (ICM)

Accomplishments

- ✓ Tuesday: T.A.R.T-Barbara Gooding, Panasonic Industrial Company
 - Discussion surrounding the 'STACKS' (components) of the Model
 - Outcome: Conference calls will ensue between conferences with the volunteer T.A.R.T. focus group to enhance the stacks.
 - Going Forward...Continue to enhance the ICM...it is a 'Living Document'!

Accomplishments

- ✓ EC MATRIX SURVEY RESULTS (2-14-01): Joyce Fox-Bedford, Compaq Computer Corp., Dave Sommer, CompTIA
 - eCommerce Survey Results were presented and discussed
 - eCommerce Survey Draft Survey Results will be further discussed with Olgilvey.
 - Survey results will be finalized and published on CompTIA and EIDX web sites prior to next conference.

Accomplishments

- ✓ EC Matrix published format was reviewed
 - To be published on CompTIA and EIDX websites.
 - XML information on matrix will be clickable, drill down to high level description of the various XML's.

Accomplishments

- ✓ ROI Model Presentation was given and discussed
 - Elements applicable to our industry were brainstormed
 - Elements first draft to be circulated to Matrix Team for further level 2 input.
 - ROI model will be published on CompTIA and EIDX web sites prior to next conference.

Accomplishments

- ✓ XRT- Greg Olsen, Contivo, Inc.
 - Will begin with a gap analysis of 850 Versus Rosetta Net, OAG and ebXML
 - Starting with a comparison of 850 V4010 to the OAG BOD Version 5
 - Going forward identify what is similar and what is the exception, new or different.
 - This initiative will move to GSS
 - Must have a Champion for this effort and a dedicated team!
 - ➔ Michelle Irwin is willing to champion this effort

Subcommittee Targets

- ✓ T.A.R.T. ICM: add sections dedicated to the establishment of RosettaNet, ebXML and OAG.
- ✓ Look into areas of the market place and what's happening with cXML and xCBL
- ✓ Examine existing or planned architectures within market places and exchanges
